

CHEFFLE

Cheffle started in the fall of 2015 in Stockholm with the goal of making the restaurant industry better. After market research and discussions with people in the industry, we found a problem - this industry is in constant need of recruitment but lacks a shared online venue. Our solution is the online professional network for both the employers and personnel in the restaurant industry.

Our market research shows that the restaurant industry needs an equivalent as LinkedIn, and that is what Cheffle offers. In addition, we want to simplify the recruitment process, since it is an always on-going task in this industry.

Besides being a professional network, Cheffle also offers opportunities to:

Restaurants and employers

- » Access a complete tool to handle, structure and organize your recruitment process
- » Put out job ads that can be specified to reach people with certain skills and competences
- » Strengthen your position and get noticed as an attractive workplace
- » Have a professional communication channel towards your employees

Personnel

- » Showcase yourself and verify your strengths
- » Build and sustain your industry network
- » Find jobs that fits your requests and competences

We want to make the restaurant industry sharper by better recruitment. A good network is one of the keystones to a great career and recruitment - and you will build that network with Cheffle!

We will make the restaurant industry better, do you want to be a part of this from the beginning?
